LegalTech - Legal Technology

ENGAGEMENT MODELS

Time and Material

Fits middle and large-sized projects with fluid commitment needs over the course of development (full/part-time)

Retainer

Is used for allotments of certain amount of guaranteed working hours per month

Full Time

Embracing full-time engagement model as our core approach, we guarantee tailored solutions and dedicated collaboration throughout your journey.

Part-Time

With our versatile part-time engagement model, you gain access to professional support on convenient terms, ensuring optimal results and cost-effectiveness.

Fixed Price

Works great for middle-sized projects with predefined scope and functionality

White label

Suits for development completely under the customer's brand name as part of the client's company

GO TO MARKET GUIDE

How we take your visionary ideas and skillfully transform them into exquisitely crafted products

1 Planning

- Analisis and scope
- Goals, objectives, success criteria
- Budget and resources
- Project management methodology
- Team roles
- Risks and mitigation strategy

2 Design

- Design preferenses
- Develop wireframe/ mockup
- Client's feedback
- Finalization and sending to dev phase

3 Development

- Backlog grooming
- Milestones
- Spring planning
- Spring execution
- Sprint demo/review
- Sprint retrospective
- Release

4 Testing

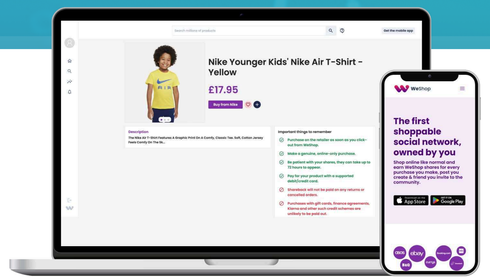
- Unit testing
- Integration testing
- End-to-end testing (E2E)
- Manual testing
- Cross-browser/cross-device testing
- Usability testing

5 Launch

- Public release
- Post-release maintenance
- Continued development

A GLIMPSE OF OUR BEST WEB PROJECTS

WeShop



ROLE

Full-stack development + DevOps services

INDUSTRY

Social Commerce

DESCRIPTION

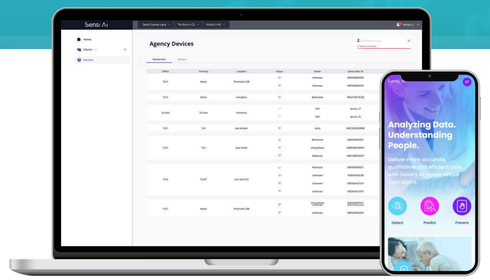
WeShop is a social commerce platform based in the UK.

ACHIVEMENTS

WeShop has raised a total funding of $1.56M over 2 rounds.

React, Redux, TypeScript, node, express, K'nex, Sequelize, PostgreSQL, redis, elasticsearch, amazon web services, Terraform, Grafana, Prometheus, Jenkins, Jest, Jasmine, AXIOS, git

Sensi.ai



ROLE

Full-stack development

INDUSTRY

AI-Powered Virtual Care and Monitoring

DESCRIPTION

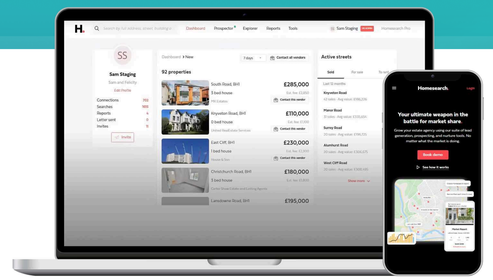
The project is the world's first in-home virtual care agent, which leverages artificial intelligence to enable care agencies to offer 24/7 services. It can collect audio data from any existing audio hardware in the home and sends it via WiFi to the company's secure cloud.

ACHIVEMENTS

Sensi.ai raises $14 million Series A for virtual care management platform

React, node, express, Prisma, PostgreSQL, Sass, Puppeteer

Homesearch



ROLE

Front-end development

INDUSTRY

Real Estate

DESCRIPTION

Homesearch is a property intelligence platform, with information on all 28.8m homes in the UK. It is long term solution - not just another portal, but the future of the industry.

ACHIVEMENTS

Homesearch raised £5,000,000 / Series A from Octopus Ventures

Vue.js, Google Maps, docker, cypress, Puppeteer, git, Sass

REVIEWS

Thanks to Kozak Agency, the client has received brilliant reviews from their end customers. The agency consistently delivers work on time and demonstrates flexibility by accommodating evening calls. Their impressive deep expertise in their field is noteworthy.

Roman Oliinyk, Platform Development Manager
YouTeam

Clutch
FIRMS THAT DELIVER

Kozak Agency's work met the client's expectations and was hardworking. The team had impressive knowledge about the newest technologies and was proactive. Kozak Agency delivered work on time and was very communicative through virtual meetings.

Matthijs De Vries, CTO
AllianceBlock

Clutch
FIRMS THAT DELIVER

Kozak Agency has successfully deployed all web apps and the portfolio dashboard on time and within budget. The team uses Jira and Linear for task tracking and management. They work fast and are flexible to last-minute changes in requirements. Customers can expect high-quality services.

RATE CARD

We strive to offer competitive pricing for our services and deliver cost savings in comparison to hiring a local engineer.

Web Development	$25-45/h
Mobile development	$30-45/h
DevOps	$40-45/h
CTO / Architect	$40-45/h
Blockchain Development	$65/h
Project Managment / Business Analysis	$30/h
UI / UX Design	$30/h
QA	$25/h
Team of a PM and two Developers (Backend and Frontend or Backend and Mobile) Monthly Pricing	$15000/month

Our all-inclusive team package comes at $160,000, offering exceptional value compared to a probable cost of a single local engineer at $100,000 per year on the market.

Team of a PM and two Developers (Backend and Frontend or Backend and Mobile) Yearly Pricing	$160000/year
